**Absent:** D. Watt, Secretary

**Minutes:** The Minutes of the meeting of February 7, 2018 were approved as submitted.

**Discussion:** The Keeping of Animals – Zoning amendments

A lengthy discussion took place in response to the suggested amendments that John Gaadt had prepared in response to the Public Meeting, which took place in December, and the number of written suggestion that had been made by interested citizens.

A number of attending residents spoke regarding their requests for inclusion, or exclusion, of items which they felt needed further discussion before formal action was taken.

Some residents asked to have the whole “keeping of animals” regulations moved to the Nuisance Ordinance.

Since most of the items of interest to the resident speakers had either to do with horses or chickens and roosters, Gaadt will re-review the material furnished by Dr. Sherrill Davison of New Bolton Center.

Respectfully submitted,

Rita E. Reves, Acting Secretary
