Re: Final NPDES Permit - MS4
Willistown Township MS4
NPDES Permit No. PAI130521
Authorization ID No. 943691
Willistown Township, Chester County

Dear Mr. Burman:

Your NPDES permit is enclosed. Please read the permit carefully. The permit expires on the date identified on page 1 of the permit. A renewal application must be submitted to this office 180 days prior to the permit expiration date, if a discharge is expected to continue past the expiration date of the permit.

Please note the reporting requirements of the NPDES permit. First term permittees and all permittees with any portion of a regulated small MS4 discharging stormwater into the Chesapeake Bay Watershed must submit all required information in annual reports. Renewal permittees with no portion of a regulated small MS4 discharging stormwater into the Chesapeake Bay Watershed must provide all required information in periodic progress reports submitted following permit years one (1) and three (3), and with the renewal application in year five (5). See Part B 3.d of the permit for specific requirements. **The first report due following permit issuance should cover the period from the end of the last annual reporting period (under the previous permit) to the end of the first year of permit coverage.** DEP's annual and progress report template can be found online by visiting www.elibrary.dep.state.pa.us and selecting "Forms", "Point and Non-Point Source Management", and "Municipal Separate Storm Sewer System MS4 Annual Progress Report".

For those MS4s that are required by Part C of the permit to submit TMDL Design Details and/or a Chesapeake Bay Pollutant Reduction Plan within one year of the effective date of this permit, permittees should utilize DEP's plan template, which can be found by visiting www.elibrary.dep.state.pa.us and selecting "Forms", "Point and Non-Point Source Management", and "Municipal Separate Storm Sewer System MS4 TMDL Plan - Chesapeake Bay Pollution Reduction Plan".
